

SEELAM GAYATRI

AI/ML Engineer • B.Tech CSE (AI & ML) • Final Year Student
+91 9908705950 | seelamgayatri18@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

EDUCATION

B.Tech – Computer Science & Engineering (AI & ML) — Malla Reddy University, Telangana *Aug 2023 – Apr 2027*
CGPA: 8.94 / 10
Relevant Coursework: Machine Learning, Deep Learning, Computer Vision, Data Structures & Algorithms, DBMS, Operating Systems

EXPERIENCE

AI-ML Virtual Internship • Grade O (Outstanding, 90–100) — EduSkills / Google for Developers (AICTE) *Jan 2026 – Mar 2026*

- Completed 10-week end-to-end ML workflows spanning data preprocessing, feature engineering, and model training on real-world datasets; evaluated and deployed models via Google Cloud AI pipelines.
- Achieved Outstanding grade (90–100 band) across all programme modules; certified by AICTE Ministry of Education in partnership with Google for Developers India Edu Program.

AI & Data Analytics Virtual Internship — Edunet Foundation / AICTE / Shell India (Skills4Future) *Aug 2025 – Sep 2025*

- Completed 4-week virtual programme on Artificial Intelligence and Data Analytics with a focus on Green Skills, organised under AICTE's Skills4Future initiative in collaboration with Shell India Markets Pvt Ltd.
- Applied AI/ML techniques to sustainability-focused datasets; developed data analytics pipelines and presented findings as part of structured programme deliverables.

PROJECTS

Crime Rate Predictor | *Python · Flask · scikit-learn · Random Forest · NCRB Dataset*

- Accomplished 93.20% prediction accuracy across 10 crime categories in 19 Indian metro cities, as measured by model evaluation on NCRB data (2014–2021), by training a Random Forest Regression model on 7 years of government records.
- Deployed as an interactive Flask web application, enabling real-time crime rate exploration through a user-facing dashboard.

LLM Comparison Benchmarking Tool | *Python · OpenAI API · Gemini API · LLaMA · REST APIs*

- Designed and built a benchmarking tool comparing GPT-4, Gemini, and LLaMA across accuracy, response latency, and output quality, surfacing insights via structured performance dashboards.
- Automated evaluation pipelines using API-based testing, reducing manual comparison effort and enabling reproducible LLM assessments.

Emotion Hub – Real-Time Facial Expression Detection | *Python · OpenCV · TensorFlow/Keras · CNN*

- Built a real-time computer vision system detecting 7 human emotions from a live webcam feed using a CNN-based classification model, achieving real-time inference with an interactive emotion-overlay UI.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript

ML & AI: Machine Learning, Random Forest, CNNs, Computer Vision, Image Classification, Deep Learning

Libraries & Tools: TensorFlow, Keras, OpenCV, scikit-learn, Pandas, NumPy, Flask, Jupyter Notebook, GitHub, VS Code

Cloud & Platforms: Google Cloud AI, AWS Cloud Foundations

CERTIFICATIONS

- NPTEL – Reinforcement Learning (IIT-backed)
- IBM / Cognitive Class – Machine Learning with Python
- AWS Academy – Cloud Foundations
- Infosys Springboard – Artificial Intelligence Domain Courses
- Tata Group – GenAI Powered Data Analytics Job Simulation

ACHIEVEMENTS & RESEARCH

- IEEE Submission: Student Performance Prediction Using Machine Learning — submitted for IEEE publication; leveraged classification algorithms to forecast academic outcomes.
- All India NCAT-26 (Naukri Campus): Scored 51/60 · Rank 1903 · 93.12 percentile out of a national pool of engineering students.
- Maintaining CGPA of 8.94/10 in B.Tech CSE (AI & ML) — top tier of class cohort.
